

Protective caps, plastic for round tubes

Item description/product images

Description

Material:
Body soft PVC.

Version:
Body black.

Note:
Hardness Shore 92A.
UV-resistant.

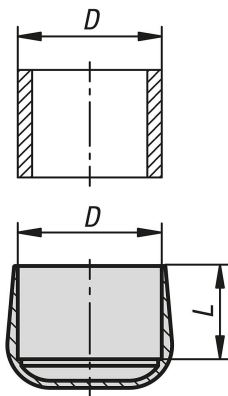

$\emptyset D$ = Tube outside diameter onto which the the respective cap fits.

Application:
The caps serve as protection against sharp edges on pipes.

Temperature range:
Cold tolerant down to approx. -15 °C under load.

Assembly:
Slight heating to ca. 40 °C simplifies the installation, the adhesion is increased and larger pipe tolerances can be compensated for.
