

# Technical information for ball lock bushes K1066 and K1067

## Note:

These are used to hold panels or thin plates. The locking pin locks mechanically in the bush with 3 balls. The ball lock bush with rotary lock only releases the locking pin when the bush is manually rotated. The repeat accuracy of  $\pm 0.25$  mm can be increased with the aid of additional locating pins.

## Application:

Ball lock bushes and ball lock bushes with rotary lock.

## Application example:

End fixating of a sliding unit.

# Technical information for magnetic bushes K1068 and K1069

## Note:

These are used to hold panels or thin plates. The pin is held in the bush housing by a magnet. The repeat accuracy of  $\pm 0.25$  mm can be increased with the aid of additional locating pins.

## Application:

## Application example:

Quick installation or removal of hatches
