

Wheels polyamide with injection-moulded tread

Item description/product images

Description

Material:

Wheel body PA.

Tread thermoplastic polyurethane elastomer.

Note:

Wheels with polyurethane tread have a high load capacity, resist abrasion, are gentle to floors, absorb shocks and vibration and are resistant to many chemicals and acids.

Temperature resistant from -30 °C to +80 °C.

Suitable as replacement rollers for the castors K1764.
