

Linear actuators, aluminium, square

Item description/product images

Description

Material:

Profile tube aluminium.

End caps aluminium

Spindle steel.

Version:

Profile tube natural tone anodised. End caps black anodised.

Note:

These linear actuators are used for linear movements and positioning. The slides are moved via a threaded spindle. This movement can be carried out either manually using a handwheel or via an electric drive. The slides are guided play-free on profile rails.

Temperature range:

0 °C to +60 °C
