

Pull handles biopolymer

Item description/product images

Description

Material:

Biopolymer wood fibre reinforced, natural beech.

Biopolymer fibreglass reinforced, black grey.

Version:

Natural beech with wood fibre optic or coloured black grey.

Note:

Good mechanical strength (tested to a minimum of 2x safety factor).

Good chemical resistance.

Suitable for outdoor use (weather resistant).

The fastening holes are designed so that the handles can be secured from the front using cap screws or hex nuts.

Assembly:

From the front or rear.

Advantages:

This biopolymer is manufactured entirely from renewable raw materials (oil free).

Good CO₂ impact compared to petroleum-based plastics.

Conservation of finite fossil resources.

The wood fibres originate 100% from local, sustainably managed forests in Germany.

Biopolymer is suitable for recycling (comparable to thermoplastics).
