

Clamp straps with adjustment unit

Item description/product images

Description

Material:

Base, ductile iron.

Clamp strap and clamping screw carbon steel.

Version:

Black oxidised.

Note:

These clamp strap modules are universal, flexible clamps constructed from individual components building a compact unit. There are no loose parts which first have to be altered for a clamping operation. The compact design allows these clamps to be placed close to the workpiece enabling the full area of the machine table to be used.
