

T-slot clamps

Item description/product images

Description

Material:

Clamping element (front) steel 1.7225.

Retaining element (rear) steel 1.0503.

Cap screws and slot keys grade 8.8 steel.

Version:

Body parts hardened and nickel-plated.

Fasteners black oxidised.

Note:

Particularly low workpieces can be clamped using the T-slot clamps. The positive down force helps to hold the workpiece down on the machine table.

Application:

1. Slide the clamp in the machine table T-slot up to the workpiece.
2. Tighten the fastening screws with the appropriate torque.
3. Tighten the clamping screw to clamp the workpiece in place.
