

# Interchangeable subplates, grey cast iron, with pre-machined clamping faces

Item description/product images

## Description

**Material:**  
GJL 300.

**Version:**  
Support and mounting surfaces ground

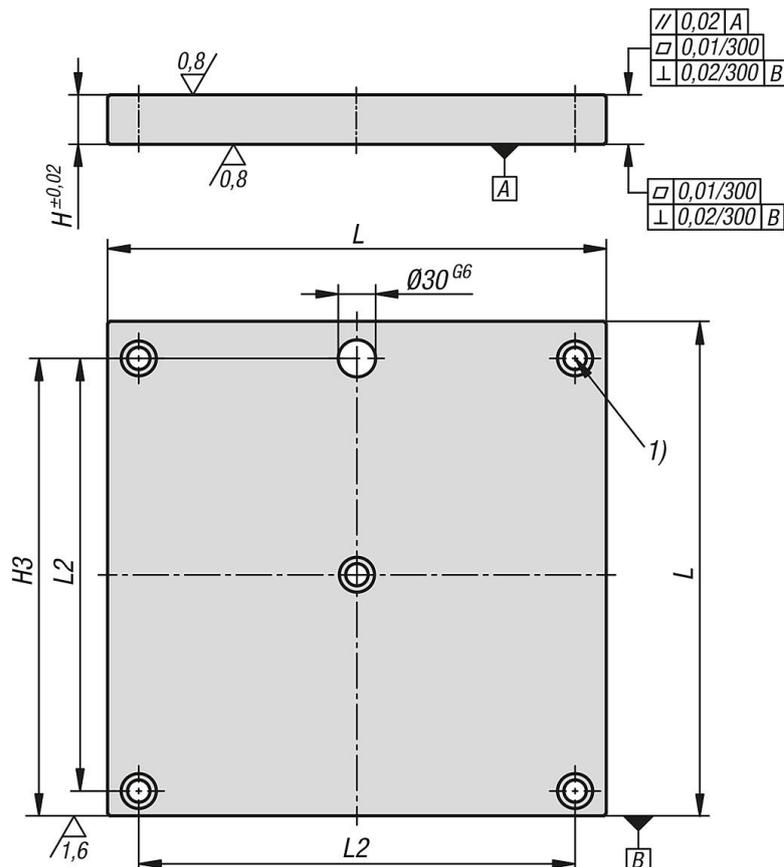

### Note:

Interchangeable subplates with pre-machine clamping faces are used double-sided, together with the tombstones. The interchangeable subplates are positioned and mounted on both sides of the tombstone. This means that clamping fixtures can be replaced efficiently. The interchangeable subplates can be machined accordingly by the customer.

### Drawing reference:

1) hole for DIN 912 cap screw, M16
