

Snap locks stainless steel with grip, fold-down

Item description/product images

Description

Material:

Stainless steel 1.4401.

Version:

Ground and polished or matt abrasive blasted.

Note:

With their countersunk grip, these snap locks are designed for flush installation in doors, hatches and covers.

Available in two different sizes for different door leaf thicknesses. Additional security with lockable variants. The locks have a single key system, all locks can be opened with the same key.

The pre-tensioned grip prevents rattling.

Max. torque to tighten the screws: 2.4 Nm.

Form A: lockable

Form B: not lockable

Type of operation:

When the grip is pulled, the latch retracts and the door can be opened. The door latches automatically when pushed shut. The latch can also be actuated from the rear.

Application:

- Automotive industries
- Machine construction
- Boat and ship building
- Aviation and aerospace
- Motorhomes and caravans
- Medical technology

Assembly:

1. Produce a mounting cutout as shown in the drawing.
2. Attach the catch plate.
3. Secure from the rear using the mounting parts supplied.

Supplied with:

Mounting bracket with M4 screws and catch plate.

The lockable snap locks are each supplied with 2 keys.

M5 screws for the catch plate are not supplied.

Drawing reference:

- 1) Door leaf
- 2) Frame
- 3) Grip
- 4) Catch plate
- 5) Mounting bracket thickness (see Table H7)
- 6) Mounting cutout
