

Side clamps automation compatible

Item description/product images

Description

Product description:

These side clamps are highly suitable for automated clamping processes.

Material:

Carbon steel.

Version:

Tempered and black oxidised.

Type of operation:

Actuated using an impact driver with adjustable torque or manually using a clamping key.

With automated operation, e.g. using impact drivers with adjustable torque, no more than 50% of the specified maximum tightening torque or clamping force may be used for loosening and tightening.

Advantages:

Automation-compatible

High clamping forces

Rapid clamping

Supplied with:

K2159.0600: 2x locating pins $\varnothing 10$ (h7) x 30.

K2159.1000: 2x locating pins $\varnothing 16$ (h7) x 30.

Accessory:

Grippers and inserts K0385.
